---

### PROFESSIONAL SUMMARY

---

Results-driven Java Full Stack Developer with hands-on experience in Core Java, Spring Boot REST APIs, React, and MySQL. Completed a Full Stack Java internship at SkillDzire, building and deploying end-to-end web applications. Proficient in OOP principles, exception handling, multithreading, and JDBC. Adept at developing scalable backend systems and responsive frontend interfaces. Seeking a fresher Java Developer role to contribute technical expertise to a collaborative development team.

### TECHNICAL SKILLS

---

**Languages:** Java (Core Java, OOP, Exception Handling, Multithreading, Collections Framework)

**Frameworks & Tools:** Spring Boot, REST APIs, JDBC, Git, GitHub

**Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js

**Databases:** MySQL, SQL Server (SQL Joins, Normalization, CRUD operations)

**Soft Skills:** Problem Solving, Teamwork, Quick Learner, Time Management

### WORK EXPERIENCE

---

**Full Stack Java Developer Intern** | SkillDzire May 2024 – Jul 2024 | Remote

- Developed and deployed RESTful APIs using Java Spring Boot, integrated with MySQL database for efficient data storage and retrieval.
- Built responsive frontend UI using HTML, CSS, JavaScript, and React components, improving user experience across desktop and mobile.
- Implemented Core Java concepts including OOP principles, Exception Handling, Multithreading, and JDBC in real-world project scenarios.

### PROJECTS

---

**Employee Management System** | Core Java | Collections Framework | OOP

- Built a console-based Employee Management System using Core Java, applying OOP principles such as encapsulation, constructors, and classes.
- Leveraged Java Collections Framework (ArrayList) to dynamically store, retrieve, update, and search employee records in memory. Designed a menu-driven interface with add, view, and search functionalities using loops, conditional logic, and Scanner for user input.

**Task Buddy – Task Management App** | HTML | CSS | JavaScript | DOM Manipulation

- Developed a responsive Task Management Web Application with features to create, edit, delete, and track daily tasks efficiently.
- Implemented dynamic task handling using JavaScript DOM manipulation and event listeners for a smooth, interactive user experience.

**GitHub Username Finder** | JavaScript | GitHub REST API | HTML | CSS

- Built a web application to search and display GitHub user profile data by consuming the GitHub REST API.
- Rendered dynamic user data including repositories, followers, and profile info using JavaScript fetch API and DOM manipulation.

### EDUCATION

---

**B.Tech – Electronics & Communication Engineering** – Vemu Institute of Technology, Chittoor | 2021 – 2025 | CGPA: 7.3

**Intermediate – MPC** – Vignanasudha Junior College, Chittoor | 2019 – 2021 | CGPA: 7.9

**SSC – 10th Class** – Z.P.H.S Naraharipeta, Chittoor | 2018 – 2019 | CGPA: 9.7

### CERTIFICATIONS

---

- Programming in Java – NPTEL | Full Stack Java Development – SkillDzire | Introduction to SQL – IBM
